

EARN YOUR Ph.D. AT THE VIRGINIA TECH DEPARTMENT OF CHEMISTRY

World class faculty. Groundbreaking research. Apply today.

THEORY & COMPUTATION FACULTY

T. DANIEL CRAWFORD
Quantum chemical models for accurate simulations of chiroptical properties
ACS Fellow
Dirac Medal of the WATOC

NICK J. MAYHALL
Quantum chemistry methods for the chemical foundations of renewable energy sources
NSF CAREER Award

DIEGO TROYA
Catalytic decontaminants for chemical warfare agents
NSF CAREER Award
Cottrell Scholar Award

EDWARD F. VALEEV
High-performance implementations of electronic structure methods for the prediction of molecules and materials properties
Dirac Medal of the WATOC
Dreyfus Teacher-Scholar

VALERIE WELBORN
Hybrid molecular dynamics methods for the simulation of biological systems and complex interfaces
