

22nd International Conference on Superlattices, Nanostructures & Nanodevices

3rd - 8th July 2022 — ICISE Quy Nhon (Vietnam)

Scopes

- Quantum Nanotechnologies and nanodevices / Solid-state quantum information processing in nanostructures
- Quantum materials: electronic, transport, topological properties and Floquet systems
- Nano-photonics and quantum optics in single quantum dots, microcavities and photonic bandgap materials
- Semiconductor Nanoelectronics: transport in quantum dots, AC-driven transport, quantum thermoelectricity
- Nano-spintronics in semiconductor and other nanostructures
- Terahertz physics and devices
- Nanoelectronics in biosystems, hybrid organic semiconductor systems, molecular systems and devices

The Abdus Salam
International Centre
for Theoretical Physics

Preliminary List of Plenary and Invited Speakers

Annalisa Bruno (Singapore)
Gwendal Fève (France)
Milena Grifoni (Germany)
Thomas Ihn (Switzerland)
Mikito Koshino (Japan)

Viet-Hung Nguyen (Belgium)
Yasutomo Ota (Japan)
Gloria Platero (Spain)
Sven Rogge (Australia)
Marlou Slot (USA)

Lars Samuelson (Sweden & China)
Seigo Tarucha (Japan)
Hyunsoo Yang (Singapore)
Dieter Weiss (Germany)

Important Dates

- Deadline for nominations for Young Scientist Award: **April 30th, 2022**
- Abstract submission deadline: **May 10th, 2022**
- Notification of acceptance to be sent: **May 20th, 2022**
- Registration deadline: **June 19th, 2022**

Organizing Committee

Chair: Dario Bercioux, Donostia International Physics Center, Spain
Chair: Van-Nam Do, Phenikaa University, Hanoi, Vietnam
Philippe Dollfus, CNRS / Paris-Saclay University, France
Jean Tran Thanh Van, ICISE, Vietnam

Reyes Calvo, University of Alicante, Spain
Daniele Passerone, EMPA, Switzerland
Magdalena Marganska, University of Regensburg, Germany
